## WOMEN WIN SKIRMISH AT FRISCO

### COMMITTEE FOR EQUAL POWER

Recommends 50-50 Sex Vote In Party's Management

### PUT UP TO THE CONVENTION

Cabinet Members Among Late Arrivals on Scene

SAN FRANCISCO.—By Associated Press.—The influx of delegations which began Friday continued and added hourly to the physical and conversational congestion in hotel lobbies. Out of the din arose what some observers professed to recognize as a spur of nomination sentiment toward Governor Cox, of Ohio. The elusive McAdoo boom also put in a new and this time, a public appearance. Bobbing serenely into sight despite Mr. McAdoo's personal efforts to chloroform it some days ago, the movement for nomination of the former treasury secretary took the shape of cards appearing in hat bands of delegates here and there with the legend "Mac'll do." As there is no McAdoo headquarters nor agency authorized to stimulate sentiment for him, so far as known, the source of the new manifestation of political immortality on the part of his boom was not clear.

### WOMEN ELATED

Action of the national committee in adopting a resolution urging the convention to grant equal committee suffrage and membership to women of the party gave the delegates another subject to discuss. Women delegates, of whom there are an unusual number present, were elated. Wives and other feminine relatives of the men delegates also participated in impromptu jubiliations that were held.

If the national committee's plan is ratified by the convention, the committee will hereafter be double in size and composed of a man and a woman member from each state with equal voting power. Delegates from non-suffrage states edged somewhat at the prospect, but they recognized that there was no escape from making the appointments for women unless the state in such case was ready to forego half its voting power in committee.

### CABINET MEMBERS ARRIVE

Arrival of part of the Pacific fleet from the south added a touch of color to lobby scenes and to the streets not known in previous conventions. Officers and men piled ashore in boat-loads.

Admiral Rodman, fleet commander, will arrive Saturday with Secretary Daniels as a passenger on his flagship. He will be the fourth member of the cabinet to reach the convention. Attorney General Palmer, most active of presidential nomination aspirants, to judge from posters and stencils now displayed and Secretary of War, Woodrow Wilson, already having joined the convention throng.

Out of the day's gossip came a new report of an impending fight on the chairmanship of the convention's resolutions committee, which will lay up the platform.

Senator Glass of Virginia, has been accepted as slated for the platform though there has been strong opposition the last day or two that Senator Walsh of Montana might get the job. Glass arrived two days ago, while Senator Walsh came in yesterday.

The Montana senator has the backing of W. J. Bryan, who also arrived yesterday, armed and equipped, he is intimated for a knockdown drag out fight against any attempt to slip a wet or even slightly moist plank into the platform. Senator Walsh has expressed opposition to a prohibition plank.

### SIXTEEN INJURED WHEN RAILWAY TRAINS CRASH

PORTSMOUTH.—Sixteen persons, Norfolk and Western passenger train No. 23 en route to Portsmouth on Wednesday, W. Va., late Friday night are injured when the passenger train entered the East Potomac yard and sidings and an east-bound freight train. One passenger was killed and the train derailed and turned over its side. Fifteen of the sixteen are only slightly injured. G. F. Pitt, news butcher of Parkersburg, W. Va., suffering with a badly lacerated left shoulder and back and fractures was the most seriously injured. He is the only one in a hospital.

### UNDAY SCHOOL MEETING AGAINST SUNDAY BASEBALL

HAMILTON.—The Ohio State Sunday School Association closed its convention here last night with a pleasant, but not before the sun had set, resolutions against Sunday baseball and for the enforcement of the Volstead prohibition act. The association approves the Saturday half holiday and urges the "organization of week-end recreation, by substituting Saturday ball games and like amusements for Sunday play.

### PARTY MASCOT GREET'S ALL ARRIVALS AT FRISCO; DELEGATE 'STEALS' RIDE

This photo shows the arrival of John T. Barnett, delegate from Den- one of the hundreds of groups of delegates tramping into San Francisco for the Democratic national convention. A white donkey, foinia woman, Mrs. George Bass, official mascot of the party, helps Chicago woman, is a leading figure welcome many of the new arrivals, at the convention.

### WETS PLANK MEN GET JOLT

### Learn Governor Cox Favors Silence on Liquor Issue

SAN FRANCISCO.—(By United Press).—Democrats demanding a wet plank in the party platform and counting on the support of Governor Cox in their fight for it, suffered a disappointment Saturday when they learned that Cox and his chief supporters are against any reference to the liquor question in the platform. Former Governor James B. Campbell, of Ohio, who heads the Ohio delegation here, said Saturday that Governor Cox stands for rigid enforcement of the prohibition laws. "The only election which Governor Cox ever lost was lost to him because of his strict enforcement of liquor laws and Sunday laws in the big cities of the state," said Campbell. "Cox is not the dupe either of the Anti-Saloon League or of the liquor interests. He has enforced the laws as he found them and that's what he stands for."

Campbell said that speaking for himself, he could see no reason why the Democratic platform should say anything about either side of the prohibition controversy. "Is that Governor Cox's view also?" Campbell was asked. "I know that he is not hostile to that view," he replied. Others of Cox's supporters here are more emphatic in declaring that the governor is definitely opposed to including in the platform any mention of the question.

### FAIRBANKS QUILTS STATE RACE

### Candidate for Governor Seeks to Aid Party Harmony

COLUMBUS.—(By United Press).—Newton H. Fairbanks, candidate for Republican nomination for governor, has withdrawn from the race, giving as his reason that he believes it in the interests of party harmony. Following after the protest made against the candidacy of Harold C. Smith, Elvira, candidate for Republican nomination for secretary of state, similar protest has been filed against Harry Clay Smith, Cleveland, colored editor. Thomas A. Goode, colored, Columbus, filed the protest against the Cleveland man, charging that his candidacy is for the purpose of confusing voters who might wish to vote for Secretary of State Harvey C. Smith, who seeks re-nomination.

### BIG GOLD CARGO DUE

NEW YORK.—A \$20,000,000 cargo of gold, consigned to the banking firm of Kuhn, Loeb and Company is aboard the steamer Mauretania, scheduled to dock here Saturday. The metal was purchased in the London open market last week. In banking circles it was stated that further gold shipments were expected here within the next two weeks.

### ELOPE VIA AIRPLANE

AKRON.—Airplane elopement of Miss Jane Lucille Ager, former actress, and Lieutenant George Layton, chief pilot of an Akron airway service company has been announced. The couple flew from the Ager farm near Sharon Center to Medina and were married June 17.

### WAR PLANS FOUND IN LINING OF OLD GLOVE

DECATUR, Ill.—Tearing apart the gauntlet of an old leather glove which he had picked up when fighting a fire at the Wabash railroad shops, H. Von Boeckman, round-house employee, found concealed therein a ground plan of the fortifications about the city of Antwerp, France. The drawing was on tracing muslin.

### STAGE SHOOTING PRONES REAL

Supposed Blank Cartridge Seriously Wounds Actor

CHICAGO.—(By United Press).—Joseph A. Hack, vaudeville actor, accidentally shot on a theatre stage here Friday by Kitty Gordon, was out of danger Saturday, physicians said. Hack, standing in the wings during Miss Gordon's act, was shot thru the right arm and side, the bullet emerging near the shoulder blade. Miss Gordon thought she was shooting a blank. Jack Wilson, Miss Gordon's stage partner, took the blame for the accident upon himself. He was released after telling the police he left a cartridge in the revolver used by Miss Gordon when he thought he had inserted blanks. Wilson said he carried the loaded gun off the stage to protect Miss Gordon's jewelry, exchanging cartridges just before the act. The evening performance went on as usual Friday night with no sign from the stage that a serious accident had occurred. The shot was fired at the climax of a play, in which the Gordon company burlesqued the filming of a screen play. By accident Frank Griffith, at whom Miss Gordon usually fires point blank, was at another part of the stage Friday. Members of the company said he would have been killed, had the act proceeded as usual. Hack, member of an athletic act, said Saturday he intended to sue Wilson personally for damages.

### DECLARE CUMMINS' FIGURES ON PENITENTIARY WRONG

COLUMBUS.—Replying to the criticism of Gaylord C. Cummins, expert employed by the joint legislative committee on the administrative reorganization of the proposed new state penitentiary, in a statement made public today declares there is no truth in Cummins' statement that the penitentiary will cost \$5,500,000. They declare the cost will not be over \$1,500,000 plus such equipment as can be moved from the present penitentiary and the proper price structure at any time it can be placed on the market.

### COUNCIL VOTES RAISE

COLUMBUS.—Definite move to give all city employees an increase in salary was made by city council when it was voted to have introduced next Monday night an ordinance granting all workers a flat wage advance of \$15 per month.

### TURKEY PROTESTS TREATY TERMS

### Foch Declares Allies Masters of Near East Situation

PARIS.—(By Associated Press).—Turkey's peace delegation was ready Saturday to submit that country's reply to the terms of the treaty presented by the allied nations. This reply was to have been transmitted on June 11, but an extension of time amounting to 15 days was granted on June 7. Anxious from Constantinople would appear to reflect a disposition on the part of the sultan's government to adopt the view of the Turkish Nationalists, who have insisted that any treaty which deprives Turkey of Smyrna, Eastern Thrace and Adrianople, could not be signed. It is said that the territorial limits fixed for the Armenian republic would be accepted, with the provision that the Armenian port of entry on the Black sea must be outside of Turkish jurisdiction and that Turkey receive compensation for districts looped off the Ottoman empire in the operation of forming the new republic. Inclusion in this effect was said to have been sent to the Turkish delegates here.

### ALLIES ARE MASTERS

PARIS.—"Allied nations are masters of the situation in the near east, as elsewhere, and, if in complete harmony, can employ all the forces at their disposal to carry out their policies, which are soberly proportioned to their interests," said Marshal Foch in an interview. Discussing German disarmament, he asserted this matter was not the destruction of 1500 cannon, but the overthrowing of the hostile militarist spirit of the German people. "If such a spirit," he continued, "should again be translated into action, the arm it would use would be the most terrible and swiftest on earth, the airplane."

### FEAR OUTBREAKS THRUOUT IRELAND: FRESH CLASHING BETWEEN RIVAL FACTIONS

DUBLIN.—Altho the situation at Londonderry had calmed Saturday, as a result of activity of the troops, authorities here were apprehensive of outbreaks of trouble in other portions of Ireland, where feeling between Orangemen and Sinn Feiners is strong. Reports were received of rioting in several Irish districts Saturday. What appeared to be a concerted attack on Sinn Feiners occurred at Bantry, when a man named Crowley was murdered by a crowd of masked men. Shooting of Crowley precipitated a general fight and resulted in many being wounded. Several shops and houses were burned down. An unsuccessful attempt was made to destroy a quantity of military stores on the Bantry quay.

### INSURANCE MEN ELECT

COLUMBUS.—Arthur L. Clemons, Cincinnati, was elected president of the Ohio Association of Insurance Agents at a meeting here. F. A. Clark, Toledo, was named vice president, and W. H. Tomlinson, retiring state insurance commissioner, was elected secretary-treasurer and general counsel.

### ADA MAYOR WEBS

ADA.—Mayor Harry Soursley of this city was married Friday to Miss Leah McElroy at Kenton. A telephone call from Columbus where the bride and groom had gone informed surprised friends in Ada of what had happened.

## HAS A HORROR OF "CROWN PRINCE"

### McAdoo Objects to This Line of Argument

### FRIENDS WON'T QUIT THO

### Determined to Press His Name Before Convention

(BY DAVID LAWRENCE)

SAN FRANCISCO.—The veil of doubt concerning the McAdoo candidacy is lifting. Friends of the former secretary of the treasury have formed a militant organization determined to nominate him over his own protest. Telegrams are coming to several of these men to stop their activities and take Mr. McAdoo at his word, but they are unavailing. Indeed, the latter is reliably reported to have told Senator Glass in a conference in New York last week that if his name were presented for nomination, the Virginia senator was authorized to say it was being done without his consent or sanction.

Nevertheless, Senator Glass is openly for McAdoo nomination and will make a fight for it. The story told by men in the confidence of Mr. McAdoo bears out the reasons given publicly by the former director general of railroads. They say he has considered the question from every angle and that he has a horror of having the "crown prince" argument and criticism of a similar vein concerning his relationship with President Wilson flung at him and his family during a political campaign. They declare, moreover, that Mrs. McAdoo has been constantly opposed to the return of her husband to public life. She knows the extent to which public and private criticism, together with almost superhuman burdens of the White House itself, can interfere with personal comfort and happiness. Her own father broke down in health and her mother died while in the White House. Every friend of McAdoo says he is thoroughly sincere in his disinclination to run for office. Why nominate him then?

To that question, comes the uniform answer from those same McAdoo men—that in a time like this personal tastes or convenience cannot outweigh the duty that a man may owe to his party and his country. They are absolutely determined that McAdoo is the man of the hour and must make the run, and with that idea in mind they are planning to draft him for the nomination.

So far as President Wilson is concerned, nobody here has had a word from him on candidates and Senator Glass, who talked with Mr. Wilson about plans for the convention, especially the platform is authority for the statement that the name of Mr. McAdoo or any other candidate did not come from the lips of the President during the entire conversation. The same holds true with respect to the Wilson office holders and faithful supporters. They haven't had a word from the White House, so they are backing Palmer or Cox, or Meredith while the original group which has been for McAdoo from the start is standing firmly for his nomination. The men in this group insist that McAdoo, himself, has recognized that the call of the country must supersede personal considerations for them. In his public statement made at the time of the withdrawal of his name from the Georgia primaries, namely, that no man could refuse the nomination for the presidency.

When Mr. McAdoo asked therefore, "What more can I do?" the answer made by forces opposed by McAdoo was that he could say he wouldn't take the nomination if proffered to him. This, however, it is argued by his friends, would be inconsistent with his first declaration at the time of the Georgia primaries. So while Mr. McAdoo is earnestly trying to prevent his friends here from putting him in the embarrassing position of appearing as a candidate, they are going ahead with remarkable steadfastness to put him in nomination. It may be excessive zeal and it may prove a mistaken compliment but the folks who are working for McAdoo here are a loyal set who will not take "no" from McAdoo. They have talked the situation over and have planned to go ahead to the finish.

Talk of giving the vice presidential nomination to Victor M. McKendrick of Kansas, former bull moose leader, comes from the McAdoo supporters, the many of them would prefer Governor Cox of Ohio to go on the ticket with McAdoo. They insist that the ticket "McAdoo and Cox" would be a winner.

### SLAYER OF OFFICER GETS DEATH VERDICT

CANTON, O.—Dick Howell was found guilty of murder in the first degree, by a jury in Judge Hubert C. Pontius' court late Friday afternoon. He was convicted of the murder of Detective Anthony Skolnicko on the evening of November 23, 1919. He will be sentenced to die in the electric chair at Columbus within a few days. His attorneys are expected to carry the case to higher courts.

### ABANDONED AUTO FOUND

YOUNGSTOWN.—An automobile bearing a Cleveland automobile club plate was found by police Friday night after it had been abandoned in a street here. It had apparently been used by a fishing party.

## 308 WOMEN TO HAVE CONVENTION SEATS

SAN FRANCISCO.—Revised figures compiled by the Democratic national committee headquarters show the following women membership in the convention: Delegates-at-large 41. District delegates 63. Alternates-at-large 39. District alternates 165. Total, 308. Of the women who will thus have seats on the floor of the convention, just half are unmarried, the rest being either wives or widows.

## FINDING KEYS TO LOCATE SLAYER

### First Arrest in Elwell Murder Expected Saturday

### CIGARETTE ALSO GIVES CLUE

### Man Under Suspicion Tells Stories That Vary

NEW YORK.—(By United Press).—The first arrest in connection with the murder of Joseph Brown Elwell, expert whist player, was near Saturday, authorities stated. Assistant District Attorney John Dooley, who has taken charge of the case, announced new evidence had been obtained, pointing toward a man who had previously been under suspicion and who was questioned several times.

The evidence was not made public, but it was reported to center around a third set of keys to the Elwell home. These keys Mary Larsen, housekeeper to the slain man, revealed on her ninth examination, were found by her in the room where she found Elwell dying. The keys are not in the possession of the police. For several days the authorities have been trying to establish definitely the ownership of the keys. Another point on which the authorities worked and which pointed to the man now under suspicion, was a partly smoked cigarette discovered in the reception room, where Elwell was shot. The cigarette was not one of the brand which Elwell smoked.

The man of whom authorities are concentrating their investigation formerly had business dealings with the gambler. Elwell made several attempts to get in touch with him shortly before he was found murdered. Suspicion of authorities was first aroused when the man under examination, contradicted stories of other witnesses, which connected him with Elwell in innocent ways. While admitting he had formerly known Elwell, he reiterated he had not been in touch with him recently.

District Attorney Dooley, accompanied by detectives, left headquarters early Saturday and was said to be prepared to question a woman again regarding the business relations of the murdered man and the man under suspicion.

## PALMER SEEKING COX ALLIANCE

### Ohioans Supporters Are Friendly But Enter No Pact

SAN FRANCISCO.—(By United Press).—An effort was on foot Saturday to form a coalition between the Palmer and Cox forces here with a view of preventing the nomination of William G. McAdoo. Cox's supporters were asked how they would view an alliance.

It was pointed out to Governor Cox's friends that the McAdoo forces being leaderless and therefore unable to make "protective deals," would be unable to stand against a Palmer-Cox coalition. Cox's workers replied to the overtures that they regarded Palmer highly, but did not think he could be elected president if nominated. As a vice-presidential possibility, they intimated, he might be considered. There the matter rests for the time being.

In the Cox camp a boom is being inflated for Secretary of Agriculture Meredith as a candidate for the presidential nomination. Cox's people say, however, that he would make an ideal second man on the ticket, whether Cox is the first man or not. Meredith, they point out, would draw great support from the farmers, both those in the Non Partisan League and those outside it; furthermore, that he would be a great publicity getter, because of his association with the Advertising Clubs and as a popular editor of farm journals.

### WILL MEET AT DAYTON

COLUMBUS.—Dayton was selected as the 1921 convention city by the Ohio Christian Endeavor association at the closing sessions of the convention here. Officers elected were: President, Fred L. Ball, Cleveland, vice president of the organization for the last two years; vice-president, Rev. Frank L. Kreeb, Bellaire; recording secretary, Hazel Harper, Cincinnati; general secretary and treasurer, Arthur E. Whitney, Columbus.

## RAIL "OUTLAWS" GAIN STRENGTH

### U. S. Officials Still Fearful Despite Board's Promise

### SHOPMEN JOIN IN WALKOUT

### Industries Shut Down Because of Coal Shortage

WASHINGTON.—(By United Press).—Government officials here Saturday still feared a sudden spread of the "unauthorized" railroad strikes between midnight and Monday morning.

Statements of brotherhood leaders at Chicago that the promise of a wage award by July 20 were apparently accepted at their face value here. Just previous to the railroad board's definite promise of a wage award late Friday, the White House received word that a general strike of all rail workers was scheduled for midnight Saturday night. Following the warning of J. P. Tumulty, secretary to President Wilson, and Secretary of the Interior Payne, who is acting rail director, went into conference at the White House. They conferred long after word came from brotherhood leaders at Chicago that these would probably be no general walkouts.

PHILADELPHIA.—(By Associated Press).—Despite the labor board's announcement of an early adjustment of the railway employees' grievances and that the decision would be retroactive to May 1, Pennsylvania railroad shopmen in this city were reported Saturday to have voted to join the walkout of the yardmen. The company employs about 1200 men at its local shops and strike leaders announced that virtually all of them attended the meeting and that the vote of strike was nearly unanimous. The shopmen have no connection with the railroad brotherhoods, but are affiliated with the American Federation of Labor. Officials of the company said that altho they did not believe any large number would quit work, they nevertheless, were preparing for such an eventuality. They admitted that some had walked out during the night. The local situation in the yardmen's strike remained unchanged.

### SWITCHMEN WALK OUT

ERIE, Pa.—(By United Press).—About 250 switchmen and yardmen went on "vacation" here Saturday morning "until the labor board hand down their wage scale decision." Three roads were affected. The Pennsylvania claimed to have 20 per cent of men working and the New York Central with the largest force in the city, only two per cent working.

### WONT RETURN TO WORK

YOUNGSTOWN, O.—(By Associated Press).—At an open meeting held by striking railroad men here Friday night the men declared that they would not return to work until given full seniority rights and assurance of no discrimination.

### CLEVELAND.—(By United Press).

Coal supply at the mines has not increased perceptibly since the interstate commerce commission's 30-day priority went into effect Monday, and the coal situation is as serious as ever. D. F. Hurd, secretary of the Pittsburgh Vein Operators Association, said Saturday. This association comprises most bituminous operators in the eastern Ohio field, representing about 80 mines. "Our total coal supply is now less than 50 per cent of the 1,500 daily that we need," said Hurd. "Of this 50 per cent must furnish railroad fuel which is normally 30 per cent of all soft coal production. So that only two-fifths of the possible coal production is available."

## WOMAN UNDER DEATH SENTENCE PRESENTED WITH ROCKER BY PEN GUARDS

OSHSING, N. Y.—For the first time in the memory of the old guard, a rocking chair is to make its appearance in Sing Sing prison. Guards contributed for the purchase of the chair for Mrs. Hattie Dixon, the only woman held in the prison for execution in many years, when they learned she was unable to sit comfortably on the regulation prison stools.

### BRANDS REPORT OF HIS WITHDRAWAL AS FALSE

COLUMBUS.—Former Congressman Ralph D. Cagle, of Findlay, who returned to his state headquarters here Saturday, after tour of southern Ohio, issued the following statement: "The statement appearing in certain newspapers Saturday to the effect that there is a possibility of my being a malicious falsehood, emanating from sources inimical to me. I am not only in the race to stay, but I will be nominated for governor at the primaries August 1st."

## FAVORS VOTE UPON BOND ISSUES

### Chamber of Commerce Likely to Urge River Improvement

The Lima chamber of commerce will in all probability support a movement to place before the voters at the August primaries a bond issue for the improvement of the Ottawa river. This announcement was made by Secretary Irving B. Lincoln following a meeting of the committee of the chamber of commerce held at the Lima club late Friday. The committee will recommend the action to the board of directors, he said.

Lincoln said the members of the committee decided after considerable discussion it would be timely for the question to be put before the voters in August. The consensus of opinion was that with proper publicity thru an educational campaign by the chamber of commerce the issue would carry.

Action of the board of directors has been delayed, according to the secretary thru the absence from the city of President George Rayly and other members of the board.

## ROSES HAVE BLOSSOMED—SO HAVE FURRY HATS

By "MARGORIE"

NEW YORK.—June roses have blossomed. The time has come when Midway decrees that her garb must speak of autumn time and falling leaves, and be so warm of hue and texture that she can feel snowflakes and wintry winds upon her. All this has come to pass according to the sartorial writ of former fashion years, even the dress associations did decree that no velvet and fur dress confections would be upon the market this Junetide. The associated Milliners worked hardest at their slogan of "Midsummer Hats for Midsummer Wear" and "the reality true that the Avenue and the hotel tea rooms have no room for velvet and fur chapeaux. But even the milliners have yielded to feminine whims and placed part velvet hats upon the market in response to the demand for "something advanced" in the hat line. Thus it is that fluffy-coiffed heads bear great floppy leghorns or lace and maline headgear topped with velvet crowns in every shade of the rainbow. This season's red, known as shrimp and lobster, abound. But, as ever, black velvet reigns supreme, and the smartest "out-of-season" hats are of cream straw brim and black velvet crown trimmed with flapping velvet streamers. Other models bespeak summer above but winter below, having facings of black or sandy velvet.

The craze for "half and half" as regards the season is not confined to the hat realm alone. The Rue's

## NOVEMBER SET BY BAPTISTS AS MONTH OF CONCENTRATED PERIOD OF EVANGELIZATION

BUFFALO.—November characterized as "nature's harvest month," will be set aside by the churches of the Northern Baptist Convention as a period for concentrated evangelization if the report submitted to the thirteenth annual session by the Rev. Thomas J. Villers, of the First Church of Detroit, Mich., is followed.

The Rev. Mr. Villers is chairman of the committee on evangelism. With eight others he surveyed the entire field during the past year. "During the past year," the report reads in part, "we have made unprecedented advances. Never before since Pentecost have the churches agreed that the fundamental need is evangelism. This was the programme of American Protestantism for April—the highest eminence ever attained by the Christian churches of America."

"We believe that our year's programme should be so planned that two periods shall be kept uninterrupted for this most fundamental work. As heretofore, including evangelism week last November, nature's harvest (thanksgiving month) be set aside for a great gathering month in all the churches throughout our convention territory. Then the Eastern season which by common consent offers a most propitious opportunity should be similarly used to the fullest extent."

The committee found that "the sorrows and hunger and antagonisms of a shattered world have everywhere stimulated efforts toward the making of a new world order."

The report lays emphasis on the fact that only about 40 per cent of the Protestant church membership are regular attendants at Sunday services and holds that to increase the effectiveness of the denomination the local church should have increased in effectiveness and that one of the best means lies in increasing the regular attendance. The seven specific things according to the report which the family group should stress are: intercessory prayer, Bible study, world missions, higher education, Christian stewardship, personal evangelism and church attendance.

## "LIMA LEADS" WILL BE REV. BOOTH'S SUBJECT ON SUNDAY EVENING

Rev. Kyle Booth, pastor of the First Congregational church, will speak on Lima's new slogan, "Lima Leads" at the First Congregational church Sunday evening at 7:30 o'clock.

The service will be of interest to every Lima resident and the church officials and pastor extend a special invitation to business men and their employees. Special music will be featured.

Union services of the First Congregational and Market-st. Presbyterian churches will be held at the First Congregational church at 10:15 o'clock Sunday morning. Rev. Mr. Booth will speak.

This will be the last service Presbyterians will hold until their new pastor, Rev. Samuel Huecker, Bryan, assumes charge of the pastorate September 1.

## JAMES K. PAXSON DIES

James Kelly Paxson, 72, retired farmer, died Friday night at the home of his nephew, J. M. Paxson, 1122 Forest-ave., after an illness of two months from a complication of diseases. He leaves two sons, Eli and James Paxson, both of Huntington, Ind.

## Tone Up Your Stomach

There is no tonic for the stomach that is not a tonic for every other part of the body. But the stomach depends, as does every other organ, on the blood for its energy.

There can be no perfect digestion without rich, red blood. This is scientifically true. The way then to tone up the stomach is to enrich the blood.

If your digestion is off and your blood is thin there can be no question about it. You need Dr. Williams' Pink Pills to restore the condition of your blood, use care in the selection of your diet and the stomach will take care of itself.

Stomach trouble is debilitating. Dr. Williams' Pink Pills are a tonic and build up the blood generally. Most stomach remedies try to digest your food for you. How much better it is to tone up the stomach as nature intended. There is no pleasure in eating predigested food. Tone up your stomach and your appetite and digestion will soon be normal.

A booklet, "Want to Eat and How to Eat," which tells about this treatment will be sent free on request by the Dr. Williams' Medicine Co., Schenectady, N. Y. All druggists sell Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price, 60 cents per box.

## Children Cry for Fletcher's Castoria.

### What is Castoria

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Dr. J. C. Fletcher, and has been made under his personal supervision since its infancy. ## Advertising—the Seed

In every section of our land you will find local products of merit that are hardly known in the next county or state.

Occasionally a maker of one or more of these products decides that other folks would enjoy the merits of his goods, if they could hear of them. He begins to advertise so that Mr. Maine and Miss California shall have a chance to know about and to buy them.

All over the country folks ask for these goods, the local merchant sells and advertises them, and people everywhere thus get an opportunity to enjoy them, too.

Counsellors of the items advertised in your newspaper have been put at your disposal because advertising was the seed that multiplied the harvest. Advertising has made it possible for you to enjoy many economical comforts today because advertising made it possible to manufacture and distribute them in quantity at prices within reach of all.

The modern home, the modern kitchen was built by advertising. Folks dress better and more reasonably today because of the advertisements.

The advertisements in The Lima News & Times-Democrat newspaper are signs of progressive merchants and makers. Read them to inform yourself on what to buy and where to buy it.

HOMER WAS NEVER NEAR AS POPULAR IN THE ANCIENT DAYS OF GREECE AS A HOMER IS TODAY

# HEAVY HITTING FEATURE OF MAJORS

BY JOE BERNSTEIN

Besides allowing Babe Ruth to advance his total of home runs to twenty-two, there was little that could create any special interest in the big leagues this week.

There was only one thing different and that was extraordinary number of home runs that were walloped out into the long grass during the past seven days. The two more circuit drives that Babe Ruth gleaned Friday has carried the grand total of four base hits to exactly a dozen for the past seven days.

Ruth's two homers collected in the Friday game with Boston counted two of the three runs scored by his team.

The big boy's four base hits are becoming such ordinary things that it is hardly worth noticing them any more. The ease with which he has been securing them has taken all the pep out of the record that he seems sure to break this year.

Heavy hitting seems to be so common in the majors this season that a man isn't in it at all unless he can hit over 300. Averages for the leaders in both leagues give Sisler the lead in the American with over 100 while Hornsby, the \$200,000 wonder claimed by St. Louis is hitting well over .390.

Cincinnati and Cleveland have both retained their leads in the big league standings, yet it is by a slim margin. The Indians are little more than a game on the top, while that is the exact margin that separates Cincinnati and the second team.

Pitchers have been finding it hard sledding this week due to the exceptional heavy hitting. Reuther and Ring of the Reds have both dropped games. While of Cleveland has been forced out, Alexander in one game was chased to the showers.

All in all it's been an erratic week.

## CLEVELAND BATTING FIRST—FIELDING SECOND

Averages give the Cleveland Indians a percentage of .310 as a leading team, allowing them to remain unsurpassed in this department of the game in their league.

The nearest thing to them in the batting column is the St. Louis team that boasts of George Sisler. St. Louis is gleaming an average of .301 from the trips of its men to the plate.

But the Indians have their Speaker, even if the Browns have their Sisler. The manager fielder is batting just next to the league leader with an average of .394.

## REDS DID WELL ON TRIP THRU EAST

The Reds return home Saturday after having spent nearly three weeks in the eastern part of the country. And it was a very profitable trip that they had, for they lifted themselves from second to first position during that time, winning seven and losing six of the games played.

A regular celebration is scheduled on the return to Redland. It's going to be in the shape of a double header with the St. Louis Cardinals.

The Cardinals and their crew of heavy hitters led by \$100,000 Ross Hornsby are visiting in Cincinnati. They're going to remain in the

## BIG OUTFIELDER FROM DAYTON WILL PLAY AGAINST INDEPENDENTS SUNDAY

FEATURED on the line up of the Dayton Rubbers who are scheduled to play the Lima Independents this Sunday are a number of players who worked against the Lima team last year under the colors of the Dayton American Baseball team.

Kavanaugh who is handling the right side of the long grass for the Rubbers scoured the middle field for the Americans during last season. He proved a cracklerjack of a fielder at that time making not a single error in the many chances that were offered him.

As a hitter he is rated one of the best on the Dayton team. Last year he batted second, but this year he has been moved to even a more strategic position. He is now third on the list.

PHILADELPHIA, Pa.—Olympic aspirants from the eastern section of the United States from Maine to the Carolinas and as far west as Ohio, competed in the preliminary track and field tryouts Saturday at Franklin field. Four champions of the American expeditionary force, who made records in France, Earl Eby in the 400 meters; George A. Brondor, Jr. javelin thrower; Patrick J. Ryan, hammer thrower; and F. H. Prem, hop, step and jump, were among the contestants.

Another feature was the attempt of Ted Meredith, former University of Pennsylvania star and winner in the 1912 Olympics, to win a place on the team.

The finals in the boxing tryouts to determine who shall represent the middle Atlantic district in the national trials at New York will be held Saturday night.

**CORRECT GAMES FOR TODAY**  
Industrial league games announced yesterday were incorrect, due to a conflicting and incorrect schedule. The games for Saturday should have read as follows:  
At Murphy-st., Gramm Bernstein vs Garford; Ohio Steel vs Chalmers.  
At Faurot Park, Locomotive vs Solar.  
At McBeth Park, East Iron vs Deisel Wenmer.  
The Deisel Wenmer team, the league leaders secured permission to play their game with the East Iron at McBeth park where the factory workers will have an outing.

As the Texas legislature refused to pass a boxing bill, the Lone Star state will have to do without legalized boxing.

## RUTH HAS FEW TO GO

CHICAGO, Ill.—"Babe" Ruth, the New York slugger Saturday has eighty-six games in which to wallop out seven home runs to shatter the record of twenty-nine established by himself last season when a member of the Boston Americans.

In his remarkable drive toward a new world's record, Ruth crashed out his twenty-second homer Friday. There was no one on base at the time, but Ruth trotted around the bases, laid his club aside and began to figure on his twenty-first homer. He is sixth in batting with an average of .355.

George Sisler, the St. Louis star, who is leading the American League, hoisted his average to .416—eight point within a week. Tris Speaker of Cleveland managed to cling to second place with .384. Speaker has the league in scoring having counted 57 runs in 58 games. Ruth has crossed the plate 55 times in 54 games.

Rice of Washington is running away with honors in the base stealing. He has stolen twenty-five, while Bobby Roth, his teammate, is next in line with nineteen. Sisler is third with fifteen.

Other leading batters: Johnson, Cleveland, .362; Miller, Washington, .359; Weaver, Chicago, .352; Felsch, Chicago, .343; Jacobson, St. Louis, .341; Judge, Washington, .339; Rice, Washington, .338; Hendryx, Boston, .338.

St. Louis, which has been clamoring for baseball distinction for years, is finding solace in the batting performances of Sisler and Roger Hornsby. Hornsby is in no immediate danger of being ousted from the batting leadership of the National League, the averages including Wednesday's game giving him .391. Nicholson of Pittsburgh is trailing him in second place with .350. Roush of Cincinnati is third with .337.

Hornsby threatens to pass Cy Williams, of Philadelphia in home run hitting. Williams has belted out seven, while Hornsby has six to his credit. Max Carey, of Pittsburgh, in setting the pace for the base stealers, has a total of nineteen. Roush, of Cincinnati and Hollocher, of Chicago, are next up with fourteen each.

Willie Plant recently set a new A. A. U. record for the three-mile walk. That boy plants a mean foot, so to speak.

He was quite a star at the backstop position, earning for himself the reputation for being able to "talk 'em out of hitting."

The game with the Dayton American is scheduled to start promptly 1:30 p. m. and is scheduled to start promptly 1:30 p. m.

### PERSONAL PREJUDICES

I didn't believe that the "voice with the smile" was. A voice with the smile can become the most tiresome and sickish thing in the world. I don't like to see women smoking in automobiles. I think the tail end of the Republican ticket will swing more votes than the head end. I am very tired of seeing a man and a dog climb over mountains in the movies. I hope they don't build the movie theaters any larger. I can't see the pictures now from where I can afford to sit. I believe the Satepost editorials to be the best cure for insomnia to be found in the world. I never eat in a cheap restaurant. I can't find one. I would rather have the Turks stay in Europe than to have them over here. I am not in the market for second-hand automobile tires. I believe that if everybody went to work, the cost of living would come down and I don't believe this cost of living will ever come down until everybody goes to work. I believe Bainbridge Colby would make a stronger run for the presidency than any other Democrat. I much admire jazz music, when it is being played in the next county.

### AN EXCELLENT REASON

If a body catch a body going for his rye  
That he's kept for making toddy in  
the live-and-lye,  
If he grabs and puts the feller,  
smites him hip and thigh,  
That he catches in his collar, there's  
a reason why

In his Chicago report, our old friend (by Cobb) refers to the "ing of 'America, the Gem of the Ocean.'" Perhaps he meant "Columbia is Tenth on the Old Camp Ground" or "The Star-Spangled Yankee Doodle."

One hundred and fifty persons escaped from a Chinatown, and it will be difficult to persuade these hundred and fifty Chinamen will look exactly like any other hundred and fifty Chinamen.

## YOUR NAME

VARIATIONS — Blake, Blakely, Blakely.

RACIAL ORIGIN—Anglo-Saxon.  
SOURCE—A nickname

BLAKE is a family name belonging to one of the largest clans in Scotland, that of the name developed from a color and it is one of the colors most widely met with in this connection.

The use of such names as Blake in the descriptive sense for antedates the period in which surnames finally and gradually became hereditary. In these two facts you find the explanation of why there are so many Blakes to be found in the United States, and, indeed, all over the world, in varying form, according to the language of the land in which they live.

It was as instructive for the Anglo-Saxons to use such names to differentiate persons of the same name as it is for many of us today to apply the nicknames "Reddy" or "Whorey" to those whose complexions warrant it. Indeed, it was more natural for them to do so, for prior to the use of hereditary family names there was a distinct need for the hardest form of differentiation; furthermore, they were handicapped by no such sense of decorum which permits us moderns to use such names only outside the bounds of dignity.

In most cases the surname of Blake, or Blakely, which happens to be the more prevalent spelling of the word, which the Anglo-Saxons pronounced "Blakeli," was first applied to individuals as an adjective of their complexion or hair color, the most part, the not necessarily so. It is easy to see how a man's neighbors might apply the sobriquet to him in consequence of his habits of dress or a scowling expression.

Tomorrow—Osborne.

## LOSS FROM LIGHTNING

THERE were thirty-eight thousand fires occurred on the farms of this country last year, a little more than one-half of them being due to lightning, says the Columbus Dispatch. This according to the data of the National Board of Underwriters.

The board says that these fires were "partly preventable" and from the context of the report the impression is left that the board believes in the efficacy of lightning rods in many instances. But the truth is, probably, that lightning rods would not have materially affected the loss. It is still a debatable question, after all of these years, whether the lightning rod is effective enough to justify the outlay to provide for it. Certainly there are those who claim that they do no good whatever, and they can furnish statistics to prove their contentions, just as those who advocate lightning rods can also produce figures to prove their contentions.

But the farmers lost eighteen million dollars from fires last year that could have been prevented, and which ought to have been prevented. This was due to defective chimneys, for which there is no excuse. It ought to require much of an examination to determine whether a chimney is defective, and if it is found to be imperfect it is criminal not to remedy it at once. But the toll was eighteen million dollars from defective chimneys, just the same.

The farmers' barn is the peculiar target for lightning, and it was barn fires that caused most of the losses. Standing alone, isolated as a rule, even from the barn, especially if it is a tall one, is a shining target for the bolt of lightning. The trees about the dwelling afford much protection, but the barn, generally, is without this protection. So the farmer reads the data of losses from fires caused by the elements, and goes his way, trusting to the laws of average, that his property escape destruction. Carrying insurance is about all that he can do to protect himself.

## OUR LITTLE ISLANDS

OF THAT group of more than 100 small islands stretching in a great curve from Porto Rico southward to the coast of Venezuela, we have recently added by purchase from Denmark to the number already acquired from Spain. What are we to do with them? At the time of the purchase such expenditure was criticized as a waste of money. The joint committee of the senate and house which has returned from a visit of inspection does not confirm this opinion. Its report is indicative of confidence in the development of these islands along lines of material prosperity. Their importance as naval stations in connection with our other interests in the Antilles was recognized at the start. It is now advised that we should undertake at once their Americanization. Their people should have American currency and better transportation among themselves and with the outside world; education must be encouraged and improved, and there should be an American code of general laws to take the place of the old Danish laws—Boston Post.

## AUTOMOBILES AND POPULATION

THE figures for 1920 are not yet available, of course, but those for 1919 show there were more automobiles owned in the state of Ohio than in any other state of the union excepting only New York, and that great and wealthy state had only a few thousand more than Ohio had. There are some good reasons for expecting that on the 1920 basis Ohio will be shown to have surpassed the Empire state.

The total number of licenses issued in Ohio last year was 417,400 and the number licensed in New York, 453,588. Illinois was third with 389,135 and Pennsylvania fourth with 370,110. The state at the bottom of the 1919 list was Nevada, as might be guessed, with but 7,987 machines credited to it.

Still Ohio was far from the list in point of number of people to each automobile licensed. At the top of the column thus compared, stood the states of Iowa and Nebraska, each with one automobile to every seven people in the state. The people of these two states therefore could easily crank up their automobiles, get in their machines—assuming that they are equitably distributed—and move away without calling for the assistance of the railroads.

The district of Columbia comes next in the number of automobiles in proportion to population, with a machine for every nine people living in the district. Kansas and Montana come next with 10 people to each automobile; North Dakota and California with 11 each, and Arizona with 12.

Ohio had last year one automobile to every 13 people in the state, Illinois one to every 17 people; New York, with its enormous number of machines, only one to every 23 people, and Pennsylvania well down toward the bottom of the list with only one machine to every 24 people in the state.

Nevada with its small total number of machines had, nevertheless, one machine to every 14 of its small population.

## WHAT THE STARS PREDICT

This day is uncertain. It is a fortunate rule for entertainments of all sorts. Deceit and treachery will be rife under this sign. New discoveries in the occult which will revolutionize thought, are prophesied. A movement toward the simpler life will mark the summer months. Persons whose birthday this year should avoid speculation this year. Children born today will be popular and very artistic. (Copyright, 1920, By The Wheeler Syndicate, Inc.)

## When Louisville first heard of Matches

In the early thirties of the nineteenth century, a lady of Louisville wrote to her cousin in New York:

"When I was in Richmond last winter I was told of a curious new device for making fire. It consisted of small splinters of wood with tips of some substance that burst into flame when rubbed on a rough surface. If you can procure some of them for me, I shall be grateful."

It was many years after matches were generally made in Europe before they were seen throughout America. There was no means for spreading rapidly such wonderful news.

Today the new invention that contributes largely to comfort or convenience is quickly known in every section of the land. Advertisements bring the story. The farmer's wife of Idaho or Texas is quite as well posted as the city woman of the East.

Read the advertisements in The Lima News & Times-Democrat. They are the heralds of progress, the great news-spreading force of modern industry. They contain real news for you. They save you time and lessen your work and enable you to obtain better value for the money you spend.

Time spent in reading advertisements in The Lima News & Times-Democrat is well spent.

## OBREGON RECITES STORY OF LIFE; PLANS FUTURE

Alvaro Obregon

MEXICO CITY.—General Alvaro Obregon, for several years the strongest man in Carranza's Cabinet and the only soldier in the Mexican army who has ever succeeded in landing a smashing blow against Francisco Villa, notorious bandit chief, when he put his army to rest at the battle of Celaya in April, 1915, shortly after his split with First Chief Venustiano Carranza, has relinquished his military post and turned his command of rebel forces over to the new administration. He has returned to private life in order to resume his campaign for the presidency of the republic.

In an exclusive interview with the writer General Obregon declared that in the event of his election as chief executive of the Republic of Mexico it will be his paramount aim not alone to establish a more friendly and unquestionable relation with the Government of the United States and the civilized nations of the world in general, but to give to Mexico a safe, sane, clean and sound administration—in fact a government such as will command the respect of all the peoples of the world.

"All foreigners residing in Mexico and those interests having capital invested in the republic will be accorded the same protection as is given the Mexican citizen under our constitution, and the law and the law alone, will guide my administration in the event of my election to the Presidency," continued General Obregon.

"Nothing will please me more than to know at the end of my administration that I have succeeded in re-establishing Mexico's integrity among the nations of the world; that my revolution-born native land has again regained her solid financial footing and been accorded her proper place among the ranks of the respected nations of the world."

General Obregon was born on February 19, 1880, in the pueblo of Siquisiva, in the State of Sonora.

He received his education in the common schools of the State. From early youth it had been his ambition to become one of his country's military leaders, and it was while he was still a young man in the early nineties that he gathered about him a number of Mayo Indians in the vicinity of Siquisiva and formed a company of home guards as a protection against wandering outlaw bands.

It was not until some months after the Madero revolution gained strength in Sonora that he joined the rebel movement and with his small command of Mayo Indians as a nucleus went forth to wage war against the government of Porfirio Diaz and remained in the field until the successful conclusion of the revolution. He then retired to his ranch with his followers, where he remained until advised of Madero's assassination by General Victoriano Huerta when he again called his band together to take up arms against the usurper.

From that time on General Obregon became permanently identified with the revolutionary party, and it was only after General Pascual Orozco's treachery in deserting Madero in his hour of need to take up a bandit's career that Obregon followed him and his men into the wilderness of the north and drove him from the State of Sonora, where he had launched a campaign of murder and depredation.

Altho Obregon is known to have never been a very staunch admirer of the late President, he was appointed Minister of War and Marine in Carranza's Cabinet as a reward for his victory over Francisco Villa's army at Celaya, during which battle Obregon lost his right arm.

After several years, however, friction developed between Carranza and Obregon which ultimately brought about his resignation. He immediately hereafter publicly announced his intention of becoming

the candidate of the Liberalist party for the Presidency of Mexico.

It was this announcement by Obregon, together with the growing dissatisfaction in the ranks of the military, which brought about the final overthrow of the Carranza regime, because of the issuance of the chief executive of a manifesto cancelling the general Presidential elections called for July. Carranza basing his action for the "unsettled conditions" prevailing thruout the republic.

### NOTED SAILOR TO RETIRE

**NEW YORK.**—Captain William Finch, senior captain of the White Star Line fleet and for 46 years a seaman, took the steamer Baltic out for Liverpool Saturday on his last voyage as "skipper." He will be retired on pension when he reaches Liverpool. Captain Finch received the order of the British empire from King George for his services as a ship commander during the war, and it was his ship that took General John J. Pershing and his staff to France in 1917.

### SCHOOL HEAD RESIGNS

**COLUMBUS.**—Superintendent J. H. Francis of the Columbus public schools has resigned, it became known. Although reasons for Superintendent Francis' resignation was not given it is understood to be due to ill health. His successor has not been chosen.

## Short Shavings

The visitor to the lawyer's office stood in amazement.

"I say, old man!" he exclaimed. "Whatever has happened to you? Had a motor smash or what?"

The lawyer shook his head wearily as he gingerly touched his head and bandaged face.

"No. You remember that case the other day when I defended a man charged with a assault? Well, I made a strong plea for him on the ground that he was a fool rather than a criminal."

"Yes, but—"

"I did it so well that he was acquitted and he waited for me outside the court."

A little girl was in the habit of bringing ten cents to Sunday school, heard the superintendent say that each child in her department had been apportioned six cents a Sunday. She was very happy. Upon reaching home she ran to her mother and said, "Mother, Mr. W. says we needn't bring but six cents to Sunday school now. You know that's five cents for Sunday school and the war tax."

The teacher had been explaining fractions to her class. When she had discussed the subject at length, wishing to see how much light had been shed, she inquired:

"Now, Bobby, which would you rather have, one apple or two halves?"

The little chap promptly replied: "Two halves."

"Oh, Bobby," exclaimed the young women, a little disappointedly, "why would you prefer two halves?"

"Because then I could see if it was bad inside."

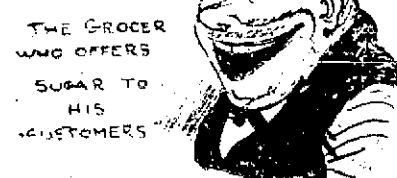

OTTAWA. — Announcement have been received of the marriage of Frederick Spencer, former Ottawa resident, and Mrs. Bertha Day-Campbell, Knoxville, Tenn.
